

The Easy Way to Order Supplies

Less time. Easy process.

1

Install Monitoring Software

To start, we install a small piece of software on a computer in your office. This very small, very secure piece of software only monitors your printer's vital signs.

Install software

2

Receive an Email Alert

If the Printer is running low on ink/toner you will receive an email. Just click the 'Order Now' button in the email and you will be directed to an online Cart.

Looks like you need supplies.

3

Place Your Order

The online Cart displays all of the inks that your printer needs. Just confirm the quantities and hit 'Submit'. You will receive an email confirming your order has been placed.

Yes, send me supplies.

4

It's on the Way

Once the order is sent for delivery you will receive an email that your supplies are on the way.

Supplies are on the way.

5

Arrive

Your order arrives and you are invoiced just as you are today. No hassle, no downtime, no phone calls.

You've got ink/toner!
